6		<input type="checkbox"/> Good <input type="checkbox"/> Poor <input type="checkbox"/> Dead	

Please provide a brief explanation of why tree removal is necessary:

We had the tree inspected by Sperry Tree Service in Eugene. They discovered that the primary supporting roots were on only one side of the tree and damaged. They indicated that the lean of the tree, away from the existing root support, aggravated by winds, heavy rains, and snowfall, could pose a future hazard to our construction. They indicated that the planned trench for electrical power could further damage and weaken the root system. Their recommendation is to remove the tree to avoid future damage to the planned home.

Would you like to receive assistance from the tree fund to plant a new tree? Yes No

Please provide a sketch of the location and number of trees in relation to surrounding structures, property lines, etc., sufficient to allow City staff to locate the trees in question:

See the site map.

I HEREBY STATE THAT THE FACTS RELATED IN THE ABOVE APPLICATION AND THE PLANS AND DOCUMENTS SUBMITTED HEREWITH ARE TRUE, COMPLETE, CORRECT, AND ACCURATE TO THE BEST OF MY KNOWLEDGE.
